7	
	9/11/15 MM/11/15 25 The question pending in this file relates to the transfer of the management of the Water Works at Sampemarahalli from the D.B.B. to the Bureau of Sanl Engineering. The D.B.B., Mysore, who were consulted in the matter, are agreable to the proposal. In forwarding the resolution of the Board the Resident states that the estimate for maintenance sent by the Sanl Engr includes a sum of Rs 41-4-0 towards Contingencies & Rs 149/- towards Supervision & audit charges at 10% and requests that these charges may not be levied.
	29 The Director of Health has stated that the Supervision & audit charges may be levied at 5% & that if this is done many small Municipalities would help to hand over the working of their Water Works to the Sanl Dept.

(Through the Deputy Commissioner, Mysore District.)

Sir,

SUBJECT:-

With reference to your letter No.L.5557 dated 9th February 1935 re: water supply to Santhemarahalli, I have the honour to state that on receipt of a report from the District Board Sanitary Inspector about the non-working of the water plant at the above place, the Superintendent, Vani Vilasa Water Works was addressed in the matter to put the machine in working order immediately. The Superintendent, Vani Vilas Water Works, wrote to say that he cannot take action without instructions from the Sanitary Engineer. The Sanitary Engineer was written to and a telegram was also sent to him. The Sanitary Engineer and the Superintendent, Vani Vilas Water works replied that they are expecting some materials from Madras and that as soon as they receive them the machine will be repaired. Copies of the replies received are herewith sent for reference. It is expected that the machine will be set right early. The delay is due to the fact that the District Board had to be dependent upon the Sanitary Department for the repairs of machine.

As regards planting more shady trees, action will be taken separately.

Extract of para 1 of the letter No.917 dated 14th February 1935 from the Superintendent, Vani Vilasa Water Works, Mysore to the President, District Board, Mysore.

In continuation of this office No.788 dated 21st January 1935, I have the honour to intimate to you that I have received instructions from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore to put the engine at Santhemarahalli to working condition and to restore water service immediately. In this connection, he has wired for necessary spare parts of the engine to the Firm directing them to send the spare parts directly to this office here, and I am awaiting the receipt of the same everyday. As soon as it is received, arragements will be made to put the engine in service and restore water supply on the same day.
